TIPS AND IDEAS

(Researched and written by Chris Sanderson)

Window scratches & marks

Although there are a number of proprietary products available on the market to polish out marks & scratches on caravan/motor home plastic windows, I've always found that a liquid metal polish such as Brasso works brilliantly. Try a small area first by applying a little of the metal polish on a slightly damp cloth. Using a circular motion and avoiding too much pressure gently rub the scratched or marked area and then polish off with dry cloth.
