### TIPS AND IDEAS

(Researched and written by Chris Sanderson)

#### Gas Heater chimney

Winterising tip – cover the chimney cowl on the caravan roof with a small plastic bag to prevent rain, sleet or snow from entering and causing damage. Secure bag with either a plastic tie or wire strap. (Rubber bands work ok but they easily perish and fail). Using a brightly coloured bag is a visible reminder BUT always attach a note to the fire to remind yourself to remove the bag before putting the heater back into operation.
