

## SUFFOLK CENTRE

### TIPS AND IDEAS

(Researched and written by Chris Sanderson)

**Let there be light** – are you aware of how much natural light your losing in your van because of the dirt and dust that has accumulated in your pop up ventilators? Ok you can clean the lid or cover part whilst cleaning the top of your van and also clean partly from inside the van. However due to the vents construction you cannot often get to where the dirt is, but did you realise that the removal of four screws from the cover or lid will allow you complete removal of the required parts and the opportunity of a good clean. Don't forget to ensure that you have safe access to reach the ventilators before you start.
