Motor Mover Special Deals – December 2012

I have recently bought a new Caravan Mover in prep for the new arrival next year. Found it via eBay at a Towbar /Mover fit company in Durham called Peter Hedley Towbars. I thought the info might be of interest to any of the centre members contemplating such a purchase.

Prices are very keen at the moment due to the time of year so bargains are out there.

I have purchased a Powrtouch Evolution Mover (Manual Engagement) for £595 delivered. This is the latest range of mover from Powrtouch which is both lighter and more powerful than their original range called Heavy Duty type 3 and type 4 .

The saving I made was £230 on the normally advertised price of £825. I have been in contact with Dave Last (Cliff Lasts son) and he will be fitting it for £90 or so when the van arrives. As Dave reminded me, one of the advantages of buying Powrtouch is that the 5 year guarantee covers parts and labour even if you require a repair whilst away from home. The majority of other mover manufacturers whilst offering a 5 year guarantee only offer that via the dealership who fitted the mover, so there could be a lot of extra running around if anything breaks etc.

The company also have two of the Powrtouch HD3 movers on sale that have been removed from their demo trailers for £450 delivered.
